Horizontal Shumps are scarce. Do add this game to your collection its a great astro port shump game. LEFTIES BEWARE! I really wanted to like this game because it looks unique and interesting. But I use my mouse with my left hand so movement keys locked to WASD instead of arrow keys with no way to rebind is a no-brainer for me.. DISCLAIMER: played over 3 h offline

If you search a simple, easy to learn but hard to master, shooter like old '80 - '90 games for enjoying some hours of frenetic shooting, this game is recommended.

You are an antibiotic and you should fight pesky viruses in a top down environment. Recover "energy" point in order to unlock more powerful "drones" for shoot down quickly the nasty viruses.

About users complaining about lack of options... the game is so light, do not require a powerful pc to run it. I'm playing it on a 2010 notebook with a Nvidia GT120M. 60 fps all time at 1600x900. Vsync on. What to ask more?

Also the game has all features announced by the Devs. Nothing more, nothing less. Just read the description in store page.. This game is absolutely horrible waste of money. The theme of all games are boring the puzzles arent entertaining and it also doesnt save your progress when you exit the game. WASTE. One of the longest and best hidden object games I have ever played! It took something like 33 hours! Great plot, great graphics, lots of HOGs, and side games. Many areas to explore. I highly recommend this one. The only downside (A sluggish cursor) fixed itself later. Try it!. Dead End Junction is a kinetic novel done in the form of a comic book. The setting is an alternate universe, similar to the U.S. Old West shortly after the Civil War.

I found it entertaining and hope the developers continue the story. With 9 hours of reading time (and I'm a fast reader), the price was very reasonable. Also, this is not anime style, it's more a western comic book.

For those who normally skip the credits, the "ending" of Dead End Junction is after the credits. So, don't just close the window when the credits start rolling!

For those looking for nudity, H scenes, etc, none in here at all, so look elsewhere.. Worth the price it would be AMAZING if they could add multiplayer or just let you drive around with friends. The non-serious, overly comic style of writing may be enjoyable by some and not by others. However, dying in a random way when two options are given, with no idea what can or should happen, more than two hours into the story in the seventh chapter and no having a chance to even re-start that chapter, instead being forced to start again from the very first page, is not something anyone should enjoy.

. Fun game, but there is no one ever online. The game is just a waste if you cant play with others. Great anti-piracy measures with no support... don't worry that it also impacts people that got it legitimately. Based on other reviews, it looks like getting it working would be the least of my problems anyway.

Thanks for the free key Indiegala - Looks like I got what I paid for here.

Another trash Unity game.. Just flew this plane during a real world lesson today, and flew this addon 172N directly after my lesson. It's a very faithful recreation, especially with P-factor during takeoff and climb. The tachometer's green arc is too large, which I believe should go from 2000 until the red line at 2700 rpm. Highly recommend if you're looking for a real-feeling GA aircraft.. Bland and Short. Would not recommend buying unless you're really super into JRPGs with turn based combat I guess. It's a prototype, but it got cool ideas, need to try the chapter games :O 7/10. It's ok I guess. I bought this on sale because these days there are no complete games only passes for more. This seemed to act like a season pass but the content is limited so you have to buy the rest. This honestly feels more like buying an expensive raffle ticket and getting a tamagotchi. I am a fan of DB BUT i dont appreciate that being used to make Multiple Passes for the fans to buy just for the very limited Content in each Which right now ON SALE you can get all the Passes and the game for the LOW LOW PRICE of \$120USD. Common Guys this is greedy. Mount & Blade + Guns of Icarus, difficult and rewarding, I love it. Fun game. With some updates and bug fixes I think it can fill the Bomberman void on PC.
